REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1 and 3-13 are allowable because none of the prior art of record suggests: the light source being exchanged after both the bottom frame and the reflector are removed, upon inverting the backlight module; a process of changing a light source in a backlight module including exchanging the light source after removing the bottom frame and the reflector sequentially, upon inverting the backlight module. Eiraku et al (6,902,285) is not capable of exchanging the light source after removing both the bottom frame (6) and reflector (8) on the bottom frame (6), because both the bottom frame (6) and reflector (8) are obscured from being obtained from the bottom side by cables (10) connected to the lamps (4) running through openings (13, fig.2A) through the bottom frame (6) and by lateral side walls of the bottom frame (6) that accommodate the light source (lamps 4), which appear to inhibit removal of the bottom frame (6) with reflector (8) from the lamps (4) and therefore inhibit removal of the reflector (8) without first removing the lamps (4). Hayashimoto (US 6,870,582) shows a backlight module inverted (fig.4) for fastening or unfastening screws (18), but does not teach changing or exchanging the light source after both the bottom frame and the reflector are removed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alan Cariaso whose telephone number is (571) 272-2366. The examiner can normally be reached on 9-5:30 M-F.
